

# Pneumatic Tube Magnet

Series: PTM

Powerful Rare Earth magnet material

Durable rubber seal to ensure a positive seal

Quick release clamp for easy magnet cleaning

Model Shown  
PTM-200

100% Stainless-Steel welded construction

**Application:** MPI's PNEUMATIC TUBE MAGNETS (PTM Series) are designed for use in pneumatic processing systems. Pneumatic Tube Magnets effectively remove inbound tramp metal contaminants from product streams conveyed by air in horizontal or vertical processing transfer lines. Typical applications include powder or granular food products, pharmaceutical, plastics and chemicals.

**Operation:** MPI's PNEUMATIC TUBE MAGNETS easily install in an existing product conveying line, and are designed to maintain a continuous flow through the housing with no reduction in product velocity. The solid nose stainless steel cone diverts the product stream over the stainless steel magnetic tube.

Collected tramp iron is easily cleaned by undoing the housing clamp, and whipping off the magnetic tube.

## Magnetic Products, Inc.

Providing Magnetic Solutions for the  
Material Handling Industry

800-544-5930

**Providing Magnetic Solutions  
For the Material Handling Industry**

**PNEUMATIC TUBE MAGNET SELECTION**

Model	A
PTM-150-REN	1.5 inches
PTM-200-REN	2.0 inches
PTM-250-REN	2.5 inches

**STANDARD FEATURES:**

- Exclusive, removable magnet element for quick, easy cleaning
- Quick release tri-clover clamp
- Rare Earth magnetic material
- 100% stainless steel construction
- Rugged all-welded construction

**OPTIONAL FEATURES:**

- Non-standard alloy stainless steel construction
- Morris-type or tri-clover coupling
- Non-standard diameters
